

**SELVA
FERTIL**

An aerial photograph of a lush, green tropical landscape. A dirt road winds through the dense vegetation. In the upper left, a small house is visible on a hill. The overall scene is vibrant and verdant, with various shades of green dominating the frame.

EXOTIC FRUITS

FROM ECUADOR

Ecuador's unique geographical position allows us to produce and have constant availability of tropical and exotic fruits.

Our company's strength is to produce and help others produce top quality exotics having a wide range available all year round for our customers.

Our quality commitment starts at the farms where our agricultural engineers supervise and direct all production processes, and approve each production that will be exported.

DISCOVER OUR FRUITS
